

Lycoming College and Rochester Institute of Technology (RIT) Accelerated MBA Program (4+1)

The IMS has recently established an articulation with the College of Business at RIT for their MBA program. The advantage of the Accelerated MBA program (4+1) is it allows students to waive 6 foundation courses in the Rochester Institute of Technology (RIT) MBA program so that it is possible to complete an MBA in one calendar year.

Courses taken at Lycoming College can be used to waive RIT MBA Foundation Courses. Two undergraduate courses are needed to be exempt from each MBA course.
