Online Citation Instruction

Sarah Silkey

Lycoming Innovations in Teaching with Technology Presentation

October 13, 2015

The Problem

- Turabian citation system requirements
  - System logic and organization
  - Determining source type
  - Microsoft Word footnote and formatting functions
  - Application of system to sample sources

- In-class instruction and practice activities
  - 1-2 hours of instruction, practice, and feedback
  - Translation of skills from handwritten to typed applications
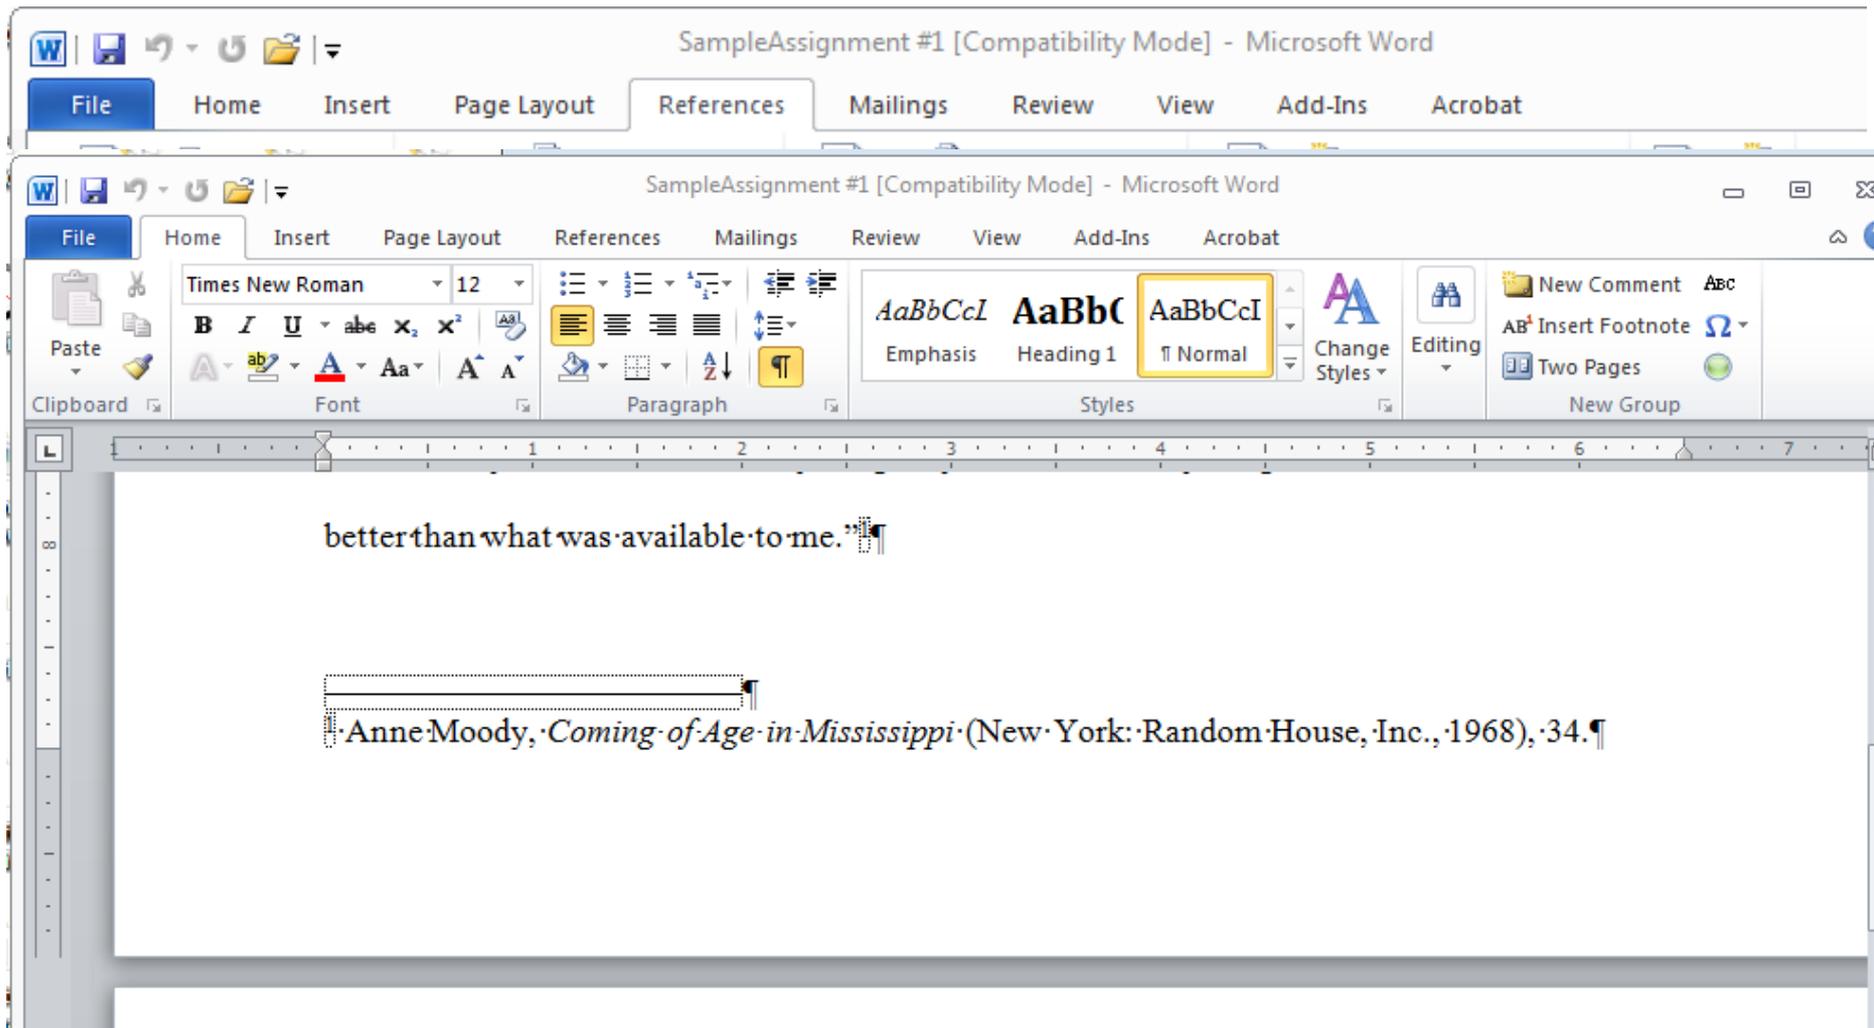

Goals

- Cut down on in-class instruction time devoted to Turabian citation system

- Automate practice activities

- Improve development and retention of skills by providing immediate feedback

ASAP Science Model

Lecture Capture Model

Moodle Assessment

- Links to video tutorials
- Embedded quizzes
  - Multiple choice
  - Matching
  - Short answer
  - Essay
- Immediate feedback and reattempts
- Streamline collection of practice answers for quick assessment

Additional Possibilities…

- Future Online Tutorials for:
    - Using particular types of primary sources
    - Instruction on reading handwritten documents
    - Framing an argument
