Course Description Correction
ART 0353A - Ancient Art and Archaeology  MW 2:00PM-3:50PM
This course will explore the roots of ancient Mediterranean culture in the Ancient Near East. Mesopotamia and Egypt produced urban cultures beginning in the 4th millennium BCE. These early urban cultures provided the seeds for the Late Bronze Age cultures of the Levant, the Aegean and Anatolia. These in turn formed the breeding ground for Mediterranean culture of the 1st millennium BCE: the foundation of the modern "western" world. An exploration of the past 100+ years of archaeological research and our resulting knowledge of ancient art and architecture will elucidate these processes.
Prerequisites: Junior standing or (1) REL 226; or (2) ART 222; or (3) ANTH 229.
