F. **HOW TO CHANGE YOUR ANTICIPATED GRADUATION DATE**

The College assumes students will complete their degrees in the standard 4 years and assigns the corresponding graduation date when they enter. You may change your intended graduation date any time you decide that you will be finishing at a different date, whether it be earlier or later. It is important that you inform the Office of the Registrar of any such changes so that you are listed with the correct graduating class for things such as senior pictures, graduation announcements, etc.

a. Complete the **Change of Graduation Date** form.
b. Return the form to the Office of the Registrar.
